HARBOR COLLECTION

Hidden wheels makes Harbor one of the most unique table lines in the H15 collection. The beautiful cast aluminum base conceals the wheels within, giving the beauty of a stationary table, and the flexibility to quickly change configurations. Harbor is available in a C-base or T-base for training, a TT base for larger conference tables, and an X-base for round or square meeting tables. Harbor's vast offering can be standardized throughout any environment.

Half round and rectangular tables with hidden wheels create the perfect meeting spot, and can be easily rearranged

Optional hidden wheels on T and C bases

Trapezoid tables offer a variety of reconfigurable options

The Harbor T-base table uses shared legs with integrated wire management to create a functional boardroom configuration
