Gateway Nesting Installation Instructions

Screw #1 **Screw #2** **Screw #3**

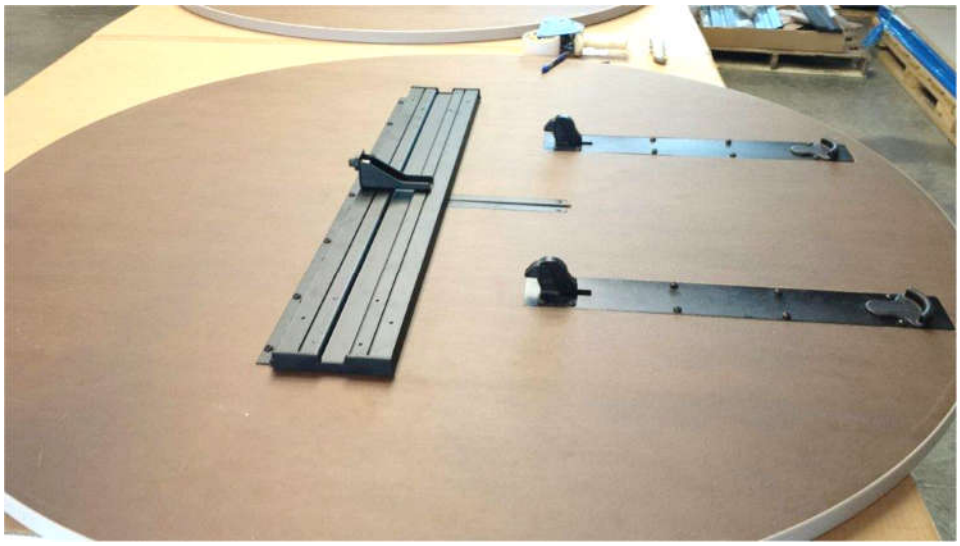

ASSEMBLY WITH TOP DOWN – THEN FLIP TABLE TO STAND UP

The Hi5 Factory completes steps 1-3 prior to shipping.

Step 1. Use Screw #1 to attach Handles, and Hinged Beam to Tabletop
NOTE: Do NOT cut zip ties off Handles until you place them in the tabletop.

Step 2. Use Screw #3 to attach Kickstand to Tabletop
Note: spread it apart as much as possible before screwing in, so the center piece can freely fall out when in the vertical position.

Step 3. Use Screw #2 to attached Bumper to the Hinged Beam

Gateway Nesting Installation Instructions

Screw #1 **Screw #2** **Screw #3**

Step 4. **Place unhinged beam on tabletop and use Screw #2 to attached Bases to both hinged and unhinged Beams.**

Foam bumpers should face handles

THE BASE SCREWS ARE SELF TAPPING. DO NOT OVER TIGHTEN THEM OR YOU WILL STRIP THE ALUMIUM BEAM!

Step 5. **Install Casters and Set Tables in Place.**

IMPROTANT:
Be sure Kickstand freely falls down in between beams when you nest table vertically.
